Community Child Guidance School Summer Programs

The CCG School offers summer programming in a structured therapeutic setting for students with serious emotional or behavioral difficulties, and pervasive developmental disorders. Our small size, high staff-to-student ratio and multi-disciplinary approach, creates a close knit community of support to ensure safety and nurture individual growth.

The CCG School's summer program is for students who are at risk for academic or behavioral and emotional deterioration over the long summer break. These programs are designed for children ages 4 through 14 who require the support of a highly structured, therapeutic setting.

The program runs from _____ through _____. The hours are 9:00 am to 3:00 pm, Monday, Tuesday, Thursday and Friday; Wednesday hours are 9:00 am to 1:00 pm. Recreational activities are integrated into both academic and behavioral programs. The therapeutic milieu is supported by individual counseling and family consultation.

Referrals to the CCG School's summer programs will be accepted from local school districts, DCF and community providers.

Academic Program

- *Reinforcement of academic skills as defined by student's IEP*
- *Enriched learning activities and projects*
- *Field trips linked to classroom themes*
- *Recreational activities and community experiences*
- *Structured behavior management system*
